

GD-52100
GD-52101

GD-52100 (1/8" cable)
GD-52101 (3/32" cable)

Extension Cables

Contents: 2 - 12' cables with loop ends.

Description: Galvanized carbon steel aircraft cables used on extension spring doors. 1/8" replaces most wood doors, 3/32" replaces most fiberglass and aluminum doors.

GD-52161

GD-52161

Extension Cables (Heavy duty)

Contents: 2 - 14' cables with loop ends.

Description: 5/32" galvanized carbon steel aircraft cables used on extension spring garage doors; replaces heavy duty wood, fiberglass and aluminum door applications.

You may also wish to stock these related parts: **GD-52100**, **GD-52101**.

GD-52102
GD-52240

GD-52102 (2 pack)
GD-52240 (4 pack)

Safety Cables

Contents: 8' 6" cables with cable clamp set.

Description: 1/8" galvanized carbon steel aircraft cables; installs through extension springs to prevent injury in case of breakage. Required on California installations. 4 cable set used on dual spring doors.

GD-52183

GD-52183

Torsion Spring Cables

Contents: 2 - 8' 8" cables with loop ends and stops.

Description: 1/8" galvanized carbon steel aircraft cable; for use on torsion spring doors, 7 feet high.

You may also wish to stock these related parts: **GD-52115**, **GD-52116**.

GD-52262

GD-52262

Extension Spring Cables

Contents: 2 - 13' 6" cables.

Description: 1/8" galvanized carbon steel aircraft cable. Special end clip designed for *Phoenix* doors.

Garage Door

GD-52263

Torsion Spring Cables

Contents: 2 - 8' 8" cables.

Description: 3/32" galvanized carbon steel aircraft cables; used on both single and double garages, fits glass doors.

GD-52263

GD-12149 (1/16")

GD-12150 (3/32")

GD-12151 (1/8")

- GD-12252** (5/16")
- GD-12253** (3/8")
- GD-12254** (1/2")

Cable Clamps

Contents: 2 cable clamp assemblies.

Description: Steel bolts and nuts; cast aluminum base; used to clamp cable loops into fixed positions; normal loop assembly uses 3 clamps.

You may wish to stock these related parts: **GD-12149** thru **GD-12154**, **GD-12256**, **GD-12257**.

Garage Door

GD-12246 (1/16")
GD-12158 (1/8")
GD-12247 (5/32")
GD-12159 (3/16")
GD-12160 (1/4")
GD-12248 (5/16")
GD-12249 (3/8")

Cable Thimbles

Contents: 2 cable thimbles.

Description: Carbon steel, zinc plated thimble forms non-collapsible loop in cable; protects cable strands from wear damage.

You may wish to stock these related parts: **GD-12151**, **GD-12153**, **GD-12154**.

Cable Thimbles

GD-52108 (4" Diameter)
GD-52109 (3" Diameter)

Pulley With Strap and Axle Bolt

Contents: 1 pulley; 1 strap; 1 axle bolt with nut.

Description: Heavy duty galvanized steel pulley with galvanized steel strap; case hardened steel race with steel ball bearings; factory lubricated; can be used at stationary or spring pulley positions.

GD-52108
GD-52109

GD-52189 (2 pack)

Pulley With Strap and Axle Bolt (3" Diameter)

Contents: 2 pulleys; 2 straps; 2 axle bolts with nuts.

Description: Heavy duty galvanized steel pulley with galvanized steel strap; case hardened steel race with steel ball bearings; factory lubricated; can be used at stationary or spring pulley positions.

You may wish to stock this related part: **GD-52109**.

GD-52189

Rollers

Contents: See Chart Below.

Description: Steel ball bearing rollers with steel inner race; factory lubricated; a selection to replace most garage door rollers.

Part No.	Dim. A	Dim. B	Dim. C	Dim. D	Pkg. Qty.	Desc.
GD-52110	1-7/8"	4"	7/16"	2"	2	Standard

GD-52211

GD-52111 (Steel ball bearing)

Heavy Duty Roller (Long stem)

Contents: 1 roller assembly.

Description: Heavy duty **steel roller** with **steel inner race**; **10 ball bearings**; factory lubricated; used on side by side hinge placements for added strength.

You may wish to stock these related parts: **GD-52140**, **GD-52203**.

GD-52212 (Steel ball bearing)

Heavy Duty Roller (Short stem)

Contents: 2 roller assemblies.

Description: Heavy duty **steel roller** with **steel inner race**; **10 ball bearings**; same as **GD-52111** but, with shorter stem.

GD-52140 (Nylon ball bearing)

Standard Roller (For 2" track)

Contents: 2 roller assemblies.

Description: **Steel ball bearing** with **steel inner race** and **nylon tire** for smooth operation; **steel shaft**; factory lubricated; excellent performance in all weather conditions.

You may wish to stock these related parts: **GD-52140**, **GD-52203**.

GD-52203 (2 pack)

GD-52239 (4 pack)

Standard Roller (Plastic)

Contents: Roller assemblies.

Description: **High impact plastic rollers** have outstanding performance characteristics in all weather environments; quiet, trouble free operation.

You may wish to stock these related parts: **GD-52110**, **GD-52140**.

GD-52168

Roller and Bracket

Contents: 1 roller and bracket.

Description: **Plastic roller** and **steel bracket**; designed for **Taylor** one-piece garage doors; requires 4 rollers per door.

Center Hinge (For fiberglass doors)

Contents: 2 hinges; 4 ea. 1/4"-20 x 3/4" installation bolts.

Description: Heavy duty **galvanized steel**; old style application; fits on *Frantz* on 1200, 2400 and 2600 series doors.

You may wish to stock these related parts: **GD-52163**, **GD-52164**, **GD-52165**.

GD-52218

GD-52218

Top Fixture Bracket

Contents: 1 bracket; 2 ea. 1/4"-20 x 1/2" ribbed neck bolts and nuts.

Description: **Steel bracket**; adjustable; fits *Frantz* fiberglass doors.

GD-52117

GD-52117

Top Roller Fixture

Contents: 1 fixture; 4 ea. 1/4" -20 x 1-7/8" pancake head carriage bolts with nuts.

Description: Heavy duty **galvanized steel** fixture with adjustable roller plate; accepts a standard **7/16" diameter stem roller**; used on most wood doors.

GD-52196

GD-52196 (2 pack)

Top Roller Fixtures

Contents: 2 fixtures without fasteners.

Description: Heavy duty **galvanized steel** fixture with adjustable roller plate; accepts a standard **7/16" diameter stem roller**; used on most wood doors.

Garage Door

GD-52220

Track Brackets

Contents: 1 #1 & 1 #3 track bracket; 2 ea. 1/4" -20 x 1/2" ribbed neck bolts with nuts.

Description: Steel brackets; used to fasten track to wall.

GD-52220

GD-52115 (Right Hand)

GD-52116 (Left Hand)

Bottom Lifting Brackets

Contents: 1 bracket; 3 ea. 1/4"-20 x 1-7/8" pancake head carriage bolts with nuts.

Description: Heavy duty 13 gauge galvanized steel construction steel cable pin used on most wood doors; accepts a standard 7/16" stem diameter roller. Handling viewed from inside garage.

You may wish to stock these related parts: GD-52100, GD-52101, GD-52115 and GD-52116.

"T" Locking Handle

Contents: 1 locking handle; 2 keys.

Description: Zinc diecast construction; keyed lock; 5/16" square shaft, 3-5/8" long; replaces many garage door, camper and R.V. locking handles. Screws attach to lock from the inside of door.

GD-52121

"T" Handle

Contents: 1 outside handle; 1 inside handle with set screws.

Description: Diecast outside handle has 5/16" square, 3" long shaft; inside handle is diecast zinc with set screw; used when locking cylinder is mounted separately.

You may wish to stock this related part: **GD-52119**, **GD-152139**, **GD-52199**.

GD-52147 (Chrome)

"L" Handle and Locking Unit

Contents: 1 handle and housing; 1 cylinder lock with 2 keys; 1 set of installation fasteners.

Description: Plated diecast handle and housing with 5/16" square shaft, 3-1/8" long; keyed lock with break-off spindle; works with **GD-12138** slide lock.

You may wish to stock this related part: **GD-52138**.

GD-52123 (Chrome - 1 pack)

GD-52201 (Chrome - keyed alike - 2 pack)

GD-52214 (Brass - 1 pack)

"L" Locking Handle

Contents: Locking handles with keys.

Description: Zinc diecast construction; keyed lock; 5/16" square shaft, 2-7/8" long; replaces most garage door, camper and R.V. locking handles.

GD-52148 (Chrome)

"L" Handle

Contents: 1 handle.

Description: Diecast "L" handle with 5/16" square shaft, 3" long; non-keyed handle for use with various inside latching devices.

You may wish to stock these related parts: **GD-52119**, **GD-52199**.

GD-52124

Snap Lock (Side Mount)

Contents: 1 latch; 1 latch strike; 3 ea. 1/4"-20 x 1-7/8" pancake head carriage bolts.

Description: Heavy duty **galvanized steel** construction; spring loaded for positive latching; will fit on most 2" track configurations; used by many manufacturers.

You may wish to stock these related parts: **GD-52120, GD-52122.**

GD-52124

GD-52219

Strike Plate

Contents: 2 strikes; installation bolts.

Description: **Zinc plated steel** construction; used with many different style snap locks.

You may wish to stock these related parts: **GD-52120, GD-52122.**

GD-52219

GD-52241

GD-52241

Garage & Shed Lock (Tamper-proof)

Contents: 1 latch; 2 bolt keepers; installation bolts.

Description: Heavy gauge zinc plated steel lock; has tamperproof cover plate; can be used with surface mount or mortise bolt keepers; use with a padlock.

GD-52145

GD-52145

Slide Bolt Latch

Contents: 1 latch; 2 bolt keepers; 1 set of installation screws.

Description: Heavy gauge, zinc plated steel slide bolt latch with both surface mount or mortise bolt keepers. Use with a padlock.

GD-52166

GD-52166

Night Latch

Contents: 1 lock assembly.

Description: Heavy duty galvanized steel; works with 5/16" square shaft exterior locking handle GD-52121 and GD-52139 rim cylinder; used on both *Frantz* fiberglass and wood doors.

You may also wish to stock these related parts: GD-52122, GD-52123, GD-52162, GD-52163, GD-52164, GD-52165.

GD-52120

Swivel Latch (Center Mount)

Contents: 1 swivel latch; 4 ea. no. 8 x 1-1/4" Phillips pan head sheet metal screws.

Description: Heavy duty galvanized steel construction; accepts a 5/16" square shaft locking handle; fits on *Frantz* and others as a lever mechanism to disengage side latches.

You may wish to stock these related parts: GD-52122, GD-52123.

GD-52119

GD-52119 (Aluminum)

Center Mount Deadbolt Lock

Contents: 1 inside latch bolt assembly; 1 outside cylinder lock with 2 keys; 1 set of fasteners.

Description: Painted diecast inside lock with heavy duty steel spring bolt; key cylinder has aluminum face and 5 pin tumbler lock with cylinder ring, will replace most locking mechanisms of this type; used by many manufacturers.

You may wish to stock these related parts: GD-52139, GD-52199.

Garage Door

GD-52142

Electric Key Switch

Contents: 1 key cylinder with **plastic** housing and face plate assembly; 2 keys.

Description: Allows operation of garage door opener without a transmitter; mount to the exterior door jamb and hard wire to opener.

GD-52142

GD-52264 (Chrome)

Electric Key Switch (High Security)

Contents: 1 cylinder lock and housing assembly with 2 keys; 4 spiral nails.

Description: **Diecast** housing and waterproof cover; 7 pin cylinder lock has **chrome plated brass housing**; pick resistant, high security; momentary contact, uses 3 amp 250vac.

GD-52264

GD-52143 (Brushed chrome)

Emergency Release Kit

Contents: 1 key cylinder and housing assembly with 2 keys; 1 - 36" release cable; 1 set of fasteners.

Description: **Diecast** housing; designed to release automatic garage door opener in event of power failure; for garages without side access doors.

You may wish to stock this related part: **GD-52142**.

GD-52143

GD-52139

Rim Cylinder Lock

Contents: 1 cylinder lock with trim ring and 2 keys; 1 mounting plate and 2 screws.

Description: Heavy duty **zinc diecast housing** with **brass face** and **5 pin tumbler lock**. Used to key lock a variety of interior latching mechanisms.

You may wish to stock these related parts: **GD-52119**, **GD-52138**.

GD-52139

GD-52199

Lock Bar Disc

Contents: 1 disc.

Description: **Galvanized steel disc** is used to drive the door lock bars. Accepts a **5/16" square** shaft handle (**GD-52121**); acts as a keeper for **GD-52119** center mount deadbolt lock.

You may wish to stock these related parts: **GD-52119**, **GD-52121**, **GD-52139**.

GD-52199

Extension Springs (with Safety Cable) for Sectional Overhead Type Doors

Contents: 1 spring per package; **minimum order quantity 6** springs each. **Rated at 10,000 cycles.**

Description: Heavy duty; extension springs. It is always advisable to replace all door springs, even though only one may have broken; safety cables protect against personal injury and property damage from broken springs.

GD-12234	Green	.250	2"	32"	Right
GD-12235	Green	.250	2"	32"	Left

Description: Most doors, in recent years, have been supplied with torsion springs; located directly above the door and mounted to the header. Replacement will require the use of 2 - winding rods (**GD-12238**) and a clear understanding of wire size and handing. The chart at right will help to determine these two factors.

Measure 10 coils and refer to chart for wire size.

Wire Chart	Wire Size
	2-1/16" = .207
	2-3/16" = .218
	2-7/16" = .243
	2-1/2" = .250
